EXPLORE MORE POSSIBILITIES, OFFERED BY THE COMFORTABLE ARMCHAIRS AND VARIOUS ACCESSORIES OF GALA COLLEZIONE

Modern armchair designs are a good example of multifunctional furniture – ensuring comfortable rest alone, they are adjusting to your needs, while simultaneously pleasing your eyes with their elegant shape and high-quality workmanship. The “Get Relax” function, i.e. a possibility of smooth backrest and footrest recline, manually or electrically, movable headrests, a rotary base and outstanding profiling are only a few of the functions and features which you may find in the armchairs of the **Relaxation Zone of Gala Collezione**.

Additional accessories, such as **small tables, pouffes and chairs** will further increase the functionality of your living room. A pouffe may be used as an additional seat or footrest, a comfortable chair is guarantee of a pleasant meal at the table, while an eye-catching small table will provide a practical option to put aside frequently used small objects.

Decorative cushions will provide the sofa or a corner-piece with additional charm and make your room even cosier. Depending on colour and fabric selection, a cushion may either emphasise the elegant character, the colour and shape of furniture, warm up the room atmosphere or, conversely, add modest, unobtrusive and crude climate. Geometric patterns will usher in a wind of modern design, while stylish, classic cushions will make the room more glamour.

Play with colours, shape and style – try to add a personal touch with accessories, creating a completely individual identity and appealing interior of your living room.

EXPLANATIONS OF THE SYMBOLS

wave springs

possible selection of thread colour

The armchair is available in a broad colour range of fabrics and natural leathers

Your Relax Space

SUPPORT FOR HEAD

A comfortable, high backrest guarantees a comfortable support for the head and the neck while you are reading, watching TV, taking a nap or simply relaxing with a cup of coffee in hand. **The models with movable headrests** (Tom and Sorizo) as well as those with a mounted headrest (Neo, Presto, Zing) ensure even more effective rest and more ergonomic body position.

OUTSTANDING PROFILING

Healthy spine is a guarantee of excellent fitness and perfect well-being. Therefore, select the furniture **designed in line with ergonomic principles** and profiled to take pressure off the spine during rest.

EASY RECLINING

Armchair reclining has never been so easy – with **electric sensors**, installed in armchairs with the relaxation function (Arosa, Frida, Inari), you can recline the backrest and rise the footrest without the need to stand up from the armchair. In model with two motors (Arosa), you can separately control the backrest and footrest inclination angles.

2

GAILY AND COLOURFUL

With such a rich selection of upholstery type and colour (natural leather or fabric), you can tailor the armchair to your other furniture at the living room.

GET FAMILIAR WITH THE ADVANTAGES OF YOUR ARMCHAIR

SOFTNESS AND COMFORT

Filling of the seat and the backrest is the basis for good rest. **Wave springs and high quality foams** (highly elastic and / or polyurethane) ensure an optimal softness of the furniture, its elasticity and the sense of comfort.

PRACTICAL SOLUTIONS

The reclined footrest (Tom, Arosa, Inari, Frida) is a relief for your legs, tired after heavy day. The footrest will improve circulation and enable you to choose the most comfortable position, from sitting to reclined.

A GOOD BASE IS A GOOD BASE

With the **swivel base**, you may position your armchair in any direction and rotate it around its own axis (depending on model selection) by 180 or 360 degrees. A **wheeled** armchair (Tom) can be quickly moved at any place. In the case of Boss and Go armchairs, you can select one of the three swivel bases (rotation by 360 degrees).
